

EPFC special workshop 2018

Reproduction of European Pikeperch

Scope: This five-day workshop shall provide hands-on practical training on all relevant aspects in relation to reproduction of European pikeperch (*Sander lucioperca*). Organized and hosted by Stefan Teerlinck (Inagro) and taught by skilled experts Daniel Źarski (UWM) and Uros Ljubobratović (NARIC) this workshop will combine theoretical and practical classes from induction of reproduction to egg quality assessment. After this workshop, participants will be able to improve and standardize their own reproduction on farm level.

Venue: Inagro vzw
 Ieperseweg 87
 8800 Rumbeke-Beitem
 Belgium

Date: Monday - Friday, 17th - 21th September 2018

Price: 900 € (ex vat)
 Registration price includes:
 hotel (5 nights, incl. breakfast), some lunches, daily coffee breaks, transfers airport - hotel and transfers hotel - inagro during workshop

Registration: Limited to eight (8) participants in total!
 Priority for companies and practitioners.

Deadline for registration is Thursday 30th August 2018.

Send an Email to stefan.teerlinck@inagro.be including your name, address, short motivation, professional background and invoicing details of your company.

Please indicate any special requirements (dietary, mobility).

You will receive a notification on the outcome of your application soon after this date. Afterwards we will invoice the workshop registration fee to your company. After successful invoicing, we will send a confirmation for your registration. Do not book any flights etc. before you have received the confirmation of your successful registration!

Travel: Travel to/from workshop venue needs to be arranged by yourself and workshop registration fee does not cover the price. Transfers from Brussels Airport to Roeselare can be arranged for Sunday 16th September.
